Co-Founder of Duluwa Outdoors Menuka Gurung

“ Duluwa Outdoors curates outdoor and travel experiences exclusively led by women. Based in Nepal, a team of 5 young women travellers joined hands to build a community of women travellers who pursue education through adventure. Our vision is to support women to explore the world beyond the boundaries of homes and social restrictions and learn about themselves, their community and the world through outdoor adventure. We encourage women guides to lead the experiences we curate at an equitable pay to their male counterparts, to close the gender gap in Nepal's outdoor industry ”.

Co-Founder of Reकृति
Himanshu Shrestha

Co-Founder of Reकृति
Nasana Bajracharya

“Reकृति (Rekriti) is an upcycling brand that gives new life to discarded textiles by transforming them into high-utility bags. As the name reflects the meaning, Re stands for Reused, Repurposed & Recycled, and कृति (kriti) means Work of Art.

Reकृति aims to give the customer a joyful experience of making an environmentally friendly purchase, provide products that reflect the hard work of women artisans who make them, and deliver high-functioning durable bags that are made to sustain for a long time. Taking the customer’s experience of making an environmentally conscious purchase a step further, Reकृति provides an upcycling service. With this service, customers can choose to upcycle their unused old clothes into the product of their choice ”.

Co-Founder of
Hattihatti Nepal

Priya Sigdel

Executive Director of
Hattihatti Nepal

Sajana Jirel

"Hattihatti Nepal is committed to empowering women from marginalised communities to achieve their full social and economic potential by enhancing their capacity to choose and lead their lives for the betterment of themselves and their communities. We provide them with the necessary life skills and opportunities to help make sustainable connections towards a promising future. We are committed to sustainability and conscious consumption. We promote ethical fashion and produce products that minimise harm to people and the environment. We repurpose sarees into kimono, bow ties, tops, hair accessories, and ties, promoting sustainable fashion. We also work closely with young people to provide awareness of conscious consumption, creating a platform for the young generation to advocate for a better future".

Founder & CEO of Eco-Sathi Nepal Dr. Manu Karki

“ Eco-Sathi Nepal is dedicated to fostering sustainable living in Nepal. We provide eco-friendly alternatives to everyday products, empowering individuals to make conscious choices. Through our platform, we aim to raise awareness about environmental issues and inspire action. We believe in the power of collaboration with Nepalese brands and businesses to create a cleaner, plastic-free, and greener Nepal. A portion of our income is donated to environmental organizations, reflecting our commitment to giving back to the country that has given us so much. We welcome everyone, from newcomers to seasoned environmentalists, to join us in our mission by sharing suggestions, ideas, and comments. Together, let's make a positive impact on our planet ”.

Founder of CoffeeBhatti Shreedhar Neupane

“ Founded in 2021 by Shreedhar Neupane, CoffeeBhatti also known as Himshikhar Coffee has evolved into a leading Nepali coffee producer. With a farm at 1,000-1,200m ASL, the company focuses on quality, sustainability, and supporting local farmers. Their coffee, grown in the Shivapuri Nagarjun region, is meticulously processed, roasted, and served at Coffee Bhatti Cafe.

Himshikhar Coffee produces single-origin Arabica coffee at 1,000-1,200 ASL. We also source highland organic Arabica grown by small-scale farmers. We are in Nukawot, Bagmati province, 40km north of Kathmandu. Our coffee grows in rich, fertile soil, high elevation, and ample rainfall at the foothill of Shivapuri Nagarjun National Reserve, one of the premium coffee-growing regions. Himshikhar Coffee Company naturally cultivates Arabica with lime, mango, pineapple, and flower flavours. We train our farmers in quality coffee production to ensure better prices for their harvested cherries and excellent coffee for our customers. ”

Founder of Kapal Fertilizer Agriculture Farm Nawaraj Pandey

“Hair to Fertilizer (कपाल) is an environmental and social enterprise officially registered on December 22 2023, at Tilagupha-03, Kalikot. Its main objective is to reduce the fertilizer scarcity problem in Nepal, especially in Karnali province. Chicken feathers and hair are two of the wastes that are most difficult to manage due to their slow degradation period. After various trials and research, our team has developed an idea to produce liquid fertilizers utilizing these wastes. It not only solves the waste problem but also acts as an alternative to the burning problem of scarcity of fertilizers in Nepal. Mr Nawaraj Pandey and Mrs. Priya Karna developed an alternative solution. Finally, their collaborative efforts succeeded in conceptualising liquid fertiliser derived from hair.”

Founder & CEO of Khagraj Krishi Udhayog Pranab Lohani

“Khagraj Krishi grows red and yellow capsicums using hydroponic methods. The capsicum plants are grown in coco peat from seedling until maturity. Drip irrigation gives them all the nutrients needed to grow into healthy fruits. In the 2nd season of producing red & yellow capsicums, the product is sold in Kathmandu, Pokhara and Narayanghat through various retailers.

Given the location of the greenhouse inside Nepal, the product is picked and delivered with all the qualities such as fresh, crisp, crunchy and juicy to consumers expect in colour capsicums. Khagraj Krishi Greenhouse is located in Teraute Tole of Ghorahi Sub-metropolitan City in Lumbini Province. The greenhouse is climate-controlled using sophisticated modern technology, making it possible to maintain the optimal temperature and humidity for growing our produce”.
